VOLUME 39, 2001

CONTENTS

Number 1

L. Stewart, B.-U. Meyer, U. Frith and J. Rothwell	1	Left posterior BA37 is involved in object recognition: a TMS study
N. W. Park, B. Conrod, D. Rewilak, C. Kwon, F.-q. Gao and S. E. Black	7	Automatic activation of positive but not negative attitudes after traumatic brain injury
T. N. Welsh and D. Elliott	25	Gender differences in a dichotic listening and movement task: lateralization or strategy?
S. H. Johnson, P. M. Corballis and M. S. Gazzaniga	36	Within grasp but out of reach: evidence for a double dissociation between imagined hand and arm movements in the left cerebral hemisphere
D. Gaffan, A. Parker and A. Easton	51	Dense amnesia in the monkey after transection of fornix, amygdala and anterior temporal stem
A. Easton and D. Gaffan	71	Crossed unilateral lesions of the medial forebrain bundle and either inferior temporal or frontal cortex impair object–reward association learning in Rhesus monkeys
F. Happé, G. S. Malhi and S. Checkley	83	Acquired mind-blindness following frontal lobe surgery? A single case study of impaired 'theory of mind' in a patient treated with stereotactic anterior capsulotomy
T. F. Münte, B. M. Wieringa, H. Weyerts, A. Szentkuti, M. Matzke and S. Johannes	91	Differences in brain potentials to open and closed class words: class and frequency effects
	103	Book review

Number 2

N. D. Schluter, M. Krams, M. F. S. Rushworth and R. E. Passingham	105	Cerebral dominance for action in the human brain: the selection of actions
M. C. Tierney, M. Varga, L. Hosey, J. Grafman and A. Braun	114	PET evaluation of bilingual language compensation following early childhood brain damage
H. S. Levin, J. Song, L. Ewing-Cobbs, S. B. Chapman and D. Mendelsohn	122	Word fluency in relation to severity of closed head injury, associated frontal brain lesions, and age at injury in children
M. Gentilucci, F. Benuzzi, L. Bertolani and M. Gangitano	132	Visual illusions and the control of children arm movements
A. R. Giovagnoli	140	Relation of sorting impairment to hippocampal damage in temporal lobe epilepsy
L. Clipolotti, T. Shallice, D. Chan, N. Fox, R. Scahill, G. Harrison, J. Stevens and P. Rudge	151	Long-term retrograde amnesia... the crucial role of the hippocampus
H. Bekkering, S. F. W. Neggers, R. Walker, B. Glejßner, W. H. Dittrich and C. Kennard	173	The preparation and execution of saccadic eye and goal-directed hand movements in patients with Parkinson's disease
W. Koutstaal, A. D. Wagner, M. Rotte, A. Maril, R. L. Buckner and D. L. Schacter	184	Perceptual specificity in visual object priming: functional magnetic resonance imaging evidence for a laterality difference in fusiform cortex

U. Halsband, M. Weyers, J. Schmitt, F. Binkofski, G. Grützner and H.-J. Freund — 200 — Recognition and imitation of pantomimed motor acts after unilateral parietal and premotor lesions: a perspective on apraxia

217 — Book review

Number 3

K. N. Ochsner, S. M. Kosslyn, G. R. Cosgrove, E. H. Cassem, B. H. Price, A. A. Nierenberg and S. L. Rauch — 219 — Deficits in visual cognition and attention following bilateral anterior cingulotomy

K. Boucsein, G. Weniger, K. Mursch, B. J. Steinhoff and E. Irle — 231 — Amygdala lesion in temporal lobe epilepsy subjects impairs associative learning of emotional facial expressions

W. G. Darling, M. Rizzo and A. J. Butler — 237 — Disordered sensorimotor transformations for reaching following posterior cortical lesions

Y. M. Cycowicz, D. Friedman, J. G. Snodgrass and M. Duff — 255 — Recognition and source memory for pictures in children and adults

L. Koski and M. Petrides — 268 — Time-related changes in task performance after lesions restricted to the frontal cortex

C. Bassel and B. B. Schiff — 282 — Unilateral vibrotactile stimulation induces emotional biases in cognition and performance

T. Curran, A. Hills, M. B. Patterson and M. E. Strauss — 288 — Effects of aging on visuospatial attention: an ERP study

M. Beauregard, H. Chertkow, D. Gold and S. Bergman — 302 — The impact of semantic impairment on word stem completion in Alzheimer's disease

J. B. Rowe, A. M. Owen, I. S. Johnsrude and R. E. Passingham — 315 — Imaging the mental components of a planning task

Note

A. J. Fallgatter and M. J. Herrmann — 328 — Electrophysiological assessment of impulsive behavior in healthy subjects

Number 4

E. Ratinckx, M. Brysbaert and B. Reynvoet — 335 — Bilateral field interactions and hemispheric asymmetry in number comparison

W. G. Darling and M. Rizzo — 346 — Developmental lesions of visual cortex influence control of reaching

A. Facoetti and M. Molteni — 352 — The gradient of visual attention in developmental dyslexia

P. Bartolomeo, E. Siéroff, S. Chokron and C. Decaix — 358 — Variability of response times as a marker of diverted attention

C. Rorden, H.-O. Karnath and J. Driver — 364 — Do neck-proprioceptive and caloric-vestibular stimulation influence covert visual attention in normals, as they influence visual neglect?

A. Bechara, S. Dolan, N. Denburg, A. Hindes, S. W. Anderson and P. E. Nathan — 376 — Decision-making deficits, linked to a dysfunctional ventromedial prefrontal cortex, revealed in alcohol and stimulant abusers

E. Wojciulik, M. Husain, K. Clarke and J. Driver — 390 — Spatial working memory deficit in unilateral neglect

P. H. Weiss, C. Dohle, F. Binkofski, A. Schnitzler, H.-J. Freund and H. Hefter — 397 — Motor impairment in patients with parietal lesions: disturbances of meaningless arm movement sequences

R. Barbarotto, E. Capitani and M. Laiacona — 406 — Living musical instruments and inanimate body parts?

L. M. Stewart, V. Walsh and J. C. Rothwell — 415 — Motor and phosphene thresholds: a transcranial magnetic stimulation correlation study

S. R. Schweinberger and V. Stief — 420 — Implicit perception in patients with visual neglect: Lexical specificity in repetition priming

M. Lavidor, H. Babkoff and M. Faust — 430 — Analysis of standard and non-standard visual word format in the two hemispheres

440 — Book review

Number 5

U. Nocentini, P. Goulet, P. M. Roberts and Y. Joanette — 443 — The effects of left- versus right-hemisphere lesions on the sensitivity to intra- and interconceptual semantic relationships

C. L. Worsley, M. Recce, H. J. Spiers, J. Marley, C. E. Polkey and R. G. Morris — 452 — Path integration following temporal lobectomy in humans

A. F. Bogaert — 465 — Handedness, criminality, and sexual offending

J. Ventre-Dominey, P. Ford Dominey and E. Broussolle — 470 — Asymmetric influences of pointing on saccade latency in hemi-Parkinson's disease

H. S. Pereira, M. Landgren, C. Gillberg and H. Forssberg — 478 — Parametric control of fingertip forces during precision grip lifts in children with DCD (developmental coordination disorder) and DAMP (deficits in attention motor control and perception)

R. Cohen, C. Dobel, P. Berg, P. Koebbel, P.-W. Schönle and B. Rockstroh — 489 — Event-related potential correlates of verbal and pictorial feature comparison in aphasics and controls

S. Blanchet, B. Desgranges, P. Denise, B. Lechevalier, F. Eustache and S. Faure — 502 — New questions on the hemispheric encoding/retrieval asymmetry (HERA) model assessed by divided visual-field tachistoscopy in normal subjects

S. M. P. Verschueren and S. P. Swinnen — 510 — Dynamic position sense during a cyclical drawing movement: effects of application and withdrawal of tendon vibration

N. T. North and R. E. O'Carroll — 521 — Decision making in patients with spinal cord damage: afferent feedback and the somatic marker hypothesis

N. Ehrlé, S. Samson and M. Baulac — 525 — Processing of rapid auditory information in epileptic patients with left temporal lobe damage

P. Rabbitt, P. Diggle, D. Smith, F. Holland and L. Mc Innes — 532 — Identifying and separating the effects of practice and of cognitive ageing during a large longitudinal study of elderly community residents

Number 6

P. W. Burgess, A. Quayle and C. D. Frith — 545 — Brain regions involved in prospective memory as determined by positron emission tomography

M. H. Tabert, J. C. Borod, C. Y. Tang, G. Lange, T. C. Wei, R. Johnson, A. O. Nusbaum and M. S. Buchsbaum — 556 — Differential amygdala activation during emotional decision and recognition memory tasks using unpleasant words: an fMRI study

M. Jane Riddoch, G. W. Humphreys and M. G. Edwards — 574 — An experimental analysis of unintentional lower limb action

A. Maravita, M. Husain, K. Clarke and J. Driver — 580 — Reaching with a tool extends visual–tactile interactions into far space: evidence from cross-modal extinction

M. H. Fischer and T. Stumpp — 586 — An investigation of the time course of flanker effects in the landmark task

P. Vuilleumier, N. Valenza and T. Landis — 597 — Explicit and implicit perception of illusory contours in unilateral spatial neglect: behavioural and anatomical correlates of preattentive grouping mechanisms

B. Olk, M. Harvey, L. Dow and P. J. S. Murphy — 611 — Illusion processing in hemispatial neglect

G. G. Mascetti, R. Nicoletti, C. Carfagna, S. M. Cilia and C. A. Marzi — 626 — Can expectancy influence hemispheric asymmetries?

B. N'Kaoua, V. Lespinet, A. Barsse, A. Rougier and B. Claverie — 635 — Exploration of hemispheric specialization and lexico-semantic processing in unilateral temporal lobe epilepsy with verbal fluency tasks

K. Herholz, P. Ehlen, J. Kessler, T. Strotmann, E. Kalbe and H.-J. Markowitsch — 643 — Learning face-name associations and the effect of age and performance: a PET activation study

651 — Book reviews

Number 7

L. J. Buxbaum and P. Permaul — 653 — Hand-centered attentional and motor asymmetries in unilateral neglect

S. Vicari, S. Bellucci and G. A. Carlesimo — 665 — Procedural learning deficit in children with Williams syndrome

C. Papagno and E. Capitani — 678 — Slowly progressive aphasia: a four-year follow-up study

T. Platz, S. Bock and K. Prass — 687 — Reduced skilfulness of arm motor behaviour among motor stroke patients with good clinical recovery: does it indicate reduced automaticity? Can it be improved by unilateral or bilateral training? A kinematic motion analysis study

P. W. Kodituwakku, P. A. May, C. L. Clericuzio and D. Weers — 699 — Emotion-related learning in individuals prenatally exposed to alcohol: an investigation of the relation between set shifting, extinction of responses, and behavior

K. Patterson, M. A. Lambon Ralph, J. R. Hodges and J. L. McClelland — 709 — Deficits in irregular past-tense verb morphology associated with degraded semantic knowledge

F. Frassinetti, M. Rossi and E. Làdavas — 725 — Passive limb movements improve visual neglect

D. J. Serrien, J.-M. Burgunder and M. Wiesendanger — 734 — Grip force scaling and sequencing of events during a manipulative task in Huntington's disease

A. Broerse, T. J. Crawford and J. A. den Boer — 742 — Parsing cognition in schizophrenia using saccadic eye movements: a selective overview

757 — Erratum

Number 8

	iii	Editorial
T. Zalla, C. Plassiart, B. Pillon, J. Grafman and A. Sirigu	759	Action planning in a virtual context after prefrontal cortex damage
D. T. Stuss, D. Floden, M. P. Alexander, B. Levine and D. Katz	771	Stroop performance in focal lesion patients: dissociation of processes and frontal lobe lesion location
D. Bunce	787	Age differences in vigilance as a function of health-related physical fitness and task demands
T. T. J. Kircher, M. Brammer, N. Tous Andreu, S. C. R. Williams and P. K. McGuire	798	Engagement of right temporal cortex during processing of linguistic context
S. R. Jackson and R. Newport	810	Prism adaptation produces neglect-like patterns of hand path curvature in healthy adults
A. M. Proverbio, S. Lilli, C. Semenza and A. Zani	815	ERP indexes of functional differences in brain activation during proper and common names retrieval
M. M. Murray, J. J. Foxe, B. A. Higgins, D. C. Javitt and C. E. Schroeder	828	Visuo-spatial neural response interactions in early cortical processing during a simple reaction time task: a high-density electrical mapping study
P. Marien, B. A. Pickut, S. Engelborghs, J.-J. Martin and P. P. De Deyn	845	Phonological agraphia following a focal anterior insulo-opercular infarction
R. B. Post, K. J. Caufield and R. B. Welch	856	Contributions of object- and space-based mechanisms to line bisection errors
G. C. Baylis and L. L. Baylis	865	Visually misguided reaching in Balint's syndrome
T. Ruusuvirta	876	Differences in pitch between tones affect behaviour even when incorrectly identified in direction

Number 9

	iii	Obituary
T. W. Teasdale and D. R. Owen	881	Cognitive abilities in left-handers: writing posture revisited
D. P. Carey and E. Grace Otto-de Haart	885	Hemispatial differences in visually guided aiming are neither hemispatial nor visual
C. Gerlach	895	Structural similarity causes different category-effects depending on task characteristics
V. Goel and R. J. Dolan	901	Functional neuroanatomy of three-term relational reasoning
E. J. Maratos, R. J. Dolan, J. S. Morris, R. N. A. Henson and M. D. Rugg	910	Neural activity associated with episodic memory for emotional context
S. R. Schweinberger	921	Human brain potential correlates of voice priming and voice recognition
G. Rees, C. Frith and N. Lavie	937	Processing of irrelevant visual motion during performance of an auditory attention task
M. Ietswaart, D. P. Carey, S. Della Sala and R. S. Dijkhuizen	950	Memory-driven movements in limb apraxia: is there evidence for impaired communication between the dorsal and the ventral streams?

R. L. Skeel, B. Crosson, S. E. Nadeau, J. Algina, R. M. Bauer and E. B. Fennell — 962 — Basal ganglia dysfunction, working memory, and sentence comprehension in patients with Parkinson's disease

N. P. Bichot, S. Chenchal Rao and J. D. Schall — 972 — Continuous processing in macaque frontal cortex during visual search

M. Behrmann, S. S. Shomstein, S. E. Black and J. J. S. Barton — 983 — The eye movements of pure alexic patients during reading and nonreading tasks

J. R. Hanley, A. D. M. Davies, J. J. Downes, J. N. Roberts, Q. Y. Gong and A. R. Mayes — 1003 — Remembering and knowing in a patient with preserved recognition and impaired recall

1011 — Book review

Number 10

P. Bartolomeo, S. Chokron and G. Gainotti — 1013 — Laterally directed arm movements and right unilateral neglect after left hemisphere damage

J. Davidoff and E. K. Warrington — 1022 — A particular difficulty in discriminating between mirror images

L. A. Miller, D. Caine, A. Harding, E. J. Thompson, M. Large and J. D. G. Watson — 1037 — Right medial thalamic lesion causes isolated retrograde amnesia

K. Nakamura, R. Kawashima, M. Sugiura, T. Kato, A. Nakamura, K. Hatano, S. Nagumo, K. Kubota, H. Fukuda, K. Ito and S. Kojima — 1047 — Neural substrates for recognition of familiar voices: a PET study

V. Dobler, T. Manly, J. Atkinson, B. A. Wilson, K. Ioannou and I. H. Roberston — 1055 — Interaction of hand use and spatial selective attention in children

M. E. McCourt — 1065 — Performance consistency of normal observers in forced-choice tachistoscopic visual line bisection

A. Bisazza, V. A. Sovrano and G. Vallortigara — 1077 — Consistency among different tasks of left–right asymmetries in lines of fish originally selected for opposite direction of lateralization in a detour task

M. Martín-Loeches, J. A. Hinojosa, C. Fernández-Frías and F. J. Rubia — 1086 — Functional differences in the semantic processing of concrete and abstract words

A. C. Lee, J. P. Harris, E. A. Atkinson and M. S. Fowler — 1097 — Disruption of estimation of body-scaled aperture width in Hemiparkinson's disease

G. Vingerhoets and E. Luppens — 1105 — Cerebral blood flow velocity changes during dichotic listening with directed or divided attention: a transcranial Doppler ultrasonography study

G. A. Michael, C. Kleitz, F. Sellal, E. Hirsch and C. Marescaux — 1112 — Controlling attentional priority by preventing changes in oculomotor programs: a job for the premotor cortex?

Number 11

C. Kohlmetx, E. Altenmüller, M. Schuppert, B. M. Wieringa and T. F. Münte — 1121 — Deficit in automatic sound-change detection may underlie some music perception deficits after acute hemispheric stroke

S. Collina, P. Marangolo and P. Tabossi	1125	The role of argument structure in the production of nouns and verbs
R. Ricci and A. Chatterjee	1138	Context and crossover in unilateral neglect
P. Vuilleumier and N. Sagiv	1144	Two eyes make a pair: facial organization and perceptual learning reduce visual extinction
R. Blesa, M. Pujol, M. Aguilar, P. Santacruz, I. Bertran-Serra, G. Hernández, J. M. Sol, J. Peñ-Casonova and NORMACODEM Group	1150	Clinical validity of the 'mini-mental state' for Spanish speaking communities
V. Henkel, R. Mergl, G. Juckel, D. Rujescu, P. Mavrogiorgou, I. Giegling, H.-J. Möller and U. Hegerl	1158	Assessment of handedness using a digitizing tablet: a new method
S. L. Rossell, E. T. Bullmore, S. C. R. Williams and A. S. David	1167	Brain activation during automatic and controlled processing of semantic relations: a priming experiment using lexical-decision
S. H. Choi, D. L. Na, J. C. Adair, S. J. Yoon, C. G. Ha and K. M. Heilman	1177	Contralesional directional hypermetria associated with line bisection-specific ipsilesional neglect
W. Wang and Y.-H. Wang	1188	Sensation seeking correlates of passive auditory P3 to a single stimulus
V. Csépe, J. Osman-Sági, M. Molnár and M. Gósy	1194	Impaired speech perception in aphasic patients: event-related potential and neuropsychological assessment
S. Schwartz and J. Baldo	1209	Distinct patterns of word retrieval in right and left frontal lobe patients: a multidimensional perspective
S. Kéri, J. Kálmán, O. Kelemen, G. Benedek and Z. Janka	1218	Are Alzheimer's disease patients able to learn visual prototypes?
M. Cappelletti, B. Butterworth and M. Kopelman	1224	Spared numerical abilities in a case of semantic dementia
K. A. Briand, W. Hening, H. Poizner and A. B. Sereno	1240	Automatic orienting of visuospatial attention in Parkinson's disease
Note G. Rode, Y. Rossetti and D. Boisson	1250	Prism adaptation improves representational neglect

Number 12

J. Driver and R. S. J. Frackowiak	1255	Editorial
Introductory review J. Driver and R. S. J. Frackowiak	1257	Neurobiological measures of human selective attention
S. Kastner and L. G. Ungerleider	1263	The neural basis of biased competition in human visual cortex
J. B. Hopfinger, M. G. Woldorff, E. M. Fletcher and G. R. Mangun	1277	Dissociating top-down attentional control from selective perception and action
M. Eimer	1292	Crossmodal links in spatial attention between vision, audition, and touch: evidence from event-related brain potentials
E. Macaluso and J. Driver	1304	Spatial attention and crossmodal interactions between vision and touch
A. C. Nobre	1317	Orienting attention to instants in time

P. Downing, J. Liu and N. Kanwisher 1329 Testing cognitive models of visual attention with fMRI and MEG

G. Rees and N. Lavie 1343 What can functional imaging reveal about the role of attention in visual awareness?

C. A. Marzi, M. Girelli, E. Natale and C. Miniussi 1354 What exactly is extinguished in unilateral visual extinction? Neurophysiological evidence

Concluding review
C. Frith 1367 A framework for studying the neural basis of attention

Number 13

G. C. Westergaard, I. D. Lussier and J. D. Higley 1373 Between-species variation in the development of hand preference among macaques

D. J. Serrien and M. Wiesendanger 1379 Regulation of grasping forces during bimanual in-phase and anti-phase coordination

D. B. O'Connor, J. Archer, W. M. Hair and F. C. W. Wu 1385 Activational effects of testosterone on cognitive function in men

M. C. Corballis and P. M. Corballis 1395 Interhemispheric visual matching in the split brain

F. Pavani, F. Meneghello and E. Làdavas 1401 Deficit of auditory space perception in patients with visuospatial neglect
